REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: With regards to claims 2-6 and 8-14, the prior art of record does not disclose or fairly teach the specific circuit configuration recited in the independent claims with emphasis on an impedance element provided on the one of the conductor lines at a point between the first and second points, the impedance element reducing a peak value of a normal mode signal passing there through. With regards to claim 7, the prior art of record does not disclose or fairly teach the specific circuit configuration with emphasis on the coupling coefficient between the third winding and the first and second windings being 0.7 or greater.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Prior Art

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure: Wasaki et al US Patent Application Publications 2002/0063474, 2006/0049890, 2006/0158814, 2007001777, and Wasaki US Patent Application Publication US 2007/0057578
